Seattle Diocese Destiny Information

1. Information for first phase Destiny users:

Several schools are completing their first year with Destiny. In this first phase of our Destiny implementation these schools had the following services:

- Destiny Library Manager
- Title Peek
- WebPath Express
- One Search
- Standards Searching

At the end of the first year, the Diocese will receive a bill for support/licensing for year number two. The amount of this bill will depend on what services each school would like to continue to receive. Here is a summary of what can be included:

	Cost	
Destiny Library Manager	\$750	
Title Peek	Included	
WebPath Express	\$200	Optional
One Search	\$200	Optional
Standards Searching	\$200	Optional

The minimum support/licensing payment for year two is \$750.00

The maximum support/licensing payment for year two is \$1,350.00

Here is a reminder of what each of the three optional services is:

WebPath Express	This service adds thousands of weblinks to your Destiny database. The links are searchable on their own, or through a regular library search. These links are checked daily to make sure they are still "live", and to make sure the content didn't change to something offensive.
One Search	OS allows library users to search multiple on-line resources with a single click. Students can enter a search term, click the One Search button, and automatically search their Destiny library collection, WebPath Express, EBSCO, ProQuest... and many other paid or free databases. The advantage of One Search is that it encourages students to use the many resources schools provide for them.
Standards Searching	This allows students to search your Destiny library catalog and a database of websites for materials that are matched to specific Washington Learning Standards. Teachers and librarians can use this service to help link learning materials to the learning standards for the creation of lessons.

2. Information for New Schools joining the Destiny group.

We are in the process of renegotiating our agreement with the Washington Learning Source. At this time we do not have final pricing or a final configuration of what will be included in the package. What I do know is that the pricing will be the same or less than last year's price. The ongoing (year 2 and beyond) pricing will be very similar to what the first phase group is responsible for.
